RESUMPTION—continued.		
Chittagong. With regard to the—of the lakhiraj tenures in Sundeep, although the Board conceive the greater part of them are resumable according to the Regulations passed by the Governor-General in Council of the 1st December 1790, yet upon a reference to the 10th and 11th Articles of these Regulations, it seems intended that the officers of Government should prosecute, only for the resumption of all grants of land the revenue of which is declared by the 5th Article to belong to Government, and not for the resumption of lands the revenue of which is by the 6th Article declared to be the property of the proprietors of the villages in which they may be situated. Collector requested by Board not to take any measures for the resumption of any lands which may be in the predicament last mentioned, but to leave the several incumbents in possession on the terms on which they now hold them, until the zemindars or talookdars within whose estates they may be situated, may think proper to prosecute for the resumption of them under the 11th article of the above regulations	17th June	30
REVENUE. ANTICIPATION OF THE—Sarun. Government order disapproving of the practice regarding the—followed in the district, forwarded to Collector. As the immediate prohibition of the practice might deprive the landholders of the means of discharging their revenues, Collector should exercise his discretion, and take such measures as he may think best calculated to abolish the practice in future, either by reducing the amount of the anticipation progressively, for the ensuing two or three years, and positively prohibiting any anticipation whatever at the expiration of the period he may limit, so that the zemindars may have time to provide funds and make the necessary arrangements for the payment of their revenues without having recourse to these anticipations, or by the adoption of such other means as he may think better calculated for putting a stop to the practice without endangering the punctual discharge of the current or future revenue	10th May	51

Jessore. Apart from the gauntidars, there is another description of—in the district, called <i>khas</i>, that is, those who are not subject to a gauntidar, but pay their revenue immediately to the <i>currumcharry</i> or <i>gomastah</i> of the village. These are perhaps ancient ryots, who have now no pottahs, but pay the same rent they have for many years; or in the event of any being established on deserted lands, they take a pottah from the farmer for the mehal, probably with some deduction from the former jumma (but upon no measurement of the land) for the jumma of a village though half the ryots should have deserted, remains the same in the mofussil accounts as when in a productive state, and a certain portion of the jumma of deserted lands is included in the engagements of the farmer with the zemindar (<i>vide</i> also "Pottahs")	19th June 7
... In the principal zemindaries in the Collectorship, very few—hold from the zemindar, and these are called <i>gauntidars</i>. Of these there are two kinds; (1) <i>gauntidars</i> who take an entire mehal on its becoming deserted; and (2) who hold a jungleboory pottah. In the former there is no specification of land or rate of assessment per beegah, but a fixed sudden jumma liable to the usual mofussil <i>khurcha</i>. In the latter, the quantity of ground and rate of assessment are specified with the mofussil <i>khurcha</i>, sometimes expressed, sometimes not. These <i>gauntidars</i> let out their lands to ryots as they please, or where a <i>gauntidar</i> has taken a deserted mehal, he collects perhaps from the ryots at the same rates as his predecessor did. In either of these cases, neither the zemindar nor farmer has any right to collect from the subordinate ryots. The <i>gauntidar</i> is answerable for the revenue of the mehal	19th June 7
SALE—	
Burdwan. Of lands proposed by Collector for recovery of arrears of revenue due from the Rajah. Collector requested to submit, in the event of any of the lots proposed to be sold being composed of lands held under engagements immediately with Government, a statement of a further portion of the Rajah's lands for sale	15th May 2
... Collector requested to adjust the assessment at which the lands are to be sold on the principles laid down in the orders of the Governor-General in Council of the 22nd February last	15th May 2
... Hoodabundy papers of the lands to be sold with an additional account, pointing out the net jumma of each hoodah received from Collector	5th June 2
... As it is impossible to ascertain satisfactorily the amount which each hoodah should be allowed on account of poolbundy, it must be left to future adjustment. Opinion of Collector that it will be sufficient to notify to the purchasers that the allowance to be granted on this head (provided Government do not take the repairs of the pools upon themselves) will correspond with the amount deducted from the sum total allowed to the Rajah on that account on the whole of his zemindari	5th June 2
... Account of lands proposed by Collector for—for the recovery of the arrears of revenue due from the Rajah formed into hoodahs as directed by the orders by the Governor-General in Council of 15th March 1793, received from Collector. Opinion of Board that the sale of the lands in question would be more advantageously held in Calcutta than at Burdwan	15th May 1-2
... Previous to determining on the jumma liable to which the Collector proposes the Rajah's lands to be sold, Collector requested by Board to state if he has ascertained, as required by the Governor-General in Council's orders of the 22nd of February last, that the public assessment fixed for the lands to be sold bears the same proportion to their actual produce, as the jumma payable from the portion of the estate remaining in the possession of the zemindar bears to the actual produce of the latter	5th June 4
... The amount to be deducted from the Rajah on account of the poolbundy for the pergunnahs proposed to be sold should not be estimated on this jumma, but on a medium of the sums actually disbursed in such places for the last four years	5th June 2
... Collector informed by Board that none of the farmers holding leases of the Rajah for the lands authorized to be sold can be entitled to pay their revenues to the Collector; but that they must pay the amount of their rents for the term of their leases immediately to the purchaser, who must of course be considered in all respects with regard both to them and to Government, in the same relation as the late proprietor	5th June 4

— Report from Collector intimating that no part of the lands included in the hoodahs recommended for sale are in the possession of farmers, who now hold leases from Government under the decennial settlement	5th June	1
— Report from Collector explaining whether the lands included in the lots on hoodahs, recommended to be sold for the discharge of the balance due from the Rajah, are compactly situated		
— Report from Collector intimating that the kutkina mehalas appear to have been the only guide in forming the lots or hoodahs of the lands recommended to be sold, and that where one of them was not found to be sufficiently large, two or more, situated the nearest together, were chosen out of the same pergunnah, and united into a hoodah	24th June	8
— Opinion of Board that the leases granted either by the zemindar himself, or by the late farmer (provided the latter were not obtained by collusion) cannot legally be annulled	15th May	2
— Collector informed that the Board are of opinion that it would be highly improper that the lands included in the leases of farmers who are under engagements immediately to Government should be disposed of until the expiration of these engagements; but if the lands be held immediately of the zemindar, there can be no objection to their being disposed of, although the purchasers of lands of this description will not have the power to cancel the leases granted by the zemindar or dispossessed sudder farmer. Yet as they will derive the same benefits from the lands as the Rajah himself, the Board conceive there can be no material objection to the purchase on the grounds of these leases being inviolable...	15th May	2
— Of lands let in farm by Government for recovery of balances due from the zemindar. Minutes by Mr. Hatch, Acting President, and Mr. Chapman, Member of the Board of Revenue, regarding the selection of the lands in question for sale	17th May	21

Previous to Board's submitting any proposition to the Governor-General in Council regarding the proportion of the proceeds of pergunnah Munoura to which the Ultumghadar is entitled, and Collector's recommendation of an equal division of the mehal into rent-free and malguzarry lands, Collector requested by Board to ascertain and state, what portion of the proceeds was received by the Ultumghadar from the period of the resumption of half of his Ultumgha, to that in which the pergunnah was let in farm to Burkutulla, and in the event of its having been less than half the estimated proceeds, on what grounds it was fixed at a reduced amount ...	28th March	22
Collector informed by Board that it was in the first instance irregular in Mr. Boddam (Acting Collector) in concluding the—of pergunnah Munoura, to have admitted the zemindar to include the māl and Ultumgha (hereditary jaghir) lands in the same engagement; and they are of opinion, that it would be equally irregular to have both these descriptions of lands entered conjointly in his account settlement as proposed by him. Collector requested not to enter the jumma of the Ultumgha lands in the account abovementioned, but to confine his specification of the revenues of this pergunnah, to the māl lands only ...	23rd Jan.	31-32
Collector requested by Board to ascertain if possible, and report, owing to what circumstances the resumption of the Ultumgha lands took place; why a division of the lands into rent-free and malguzary was not made at the time; whether any applications have at any time been made for this division; and if the affirmative, the reason of their having been rejected; also whether it appears to have been intended at the period of the resumption, that the allowance to the Ultumghadar should thereafter be considered in the light of a pension ...	28th March	20-22

Chumparun. Government order intimating that orders regarding the—of Sungrampore will be communicated to Board hereafter	12th June	1	
As the jumma assessed on the district is considerably below the amount which it ought to have yielded had the assessment of it been fixed agreeably to the principles of the decennial regulations, and as this circumstance is, the Board conceive, principally attributable to collusion on the part of the landholders and Jag Mohun, enquiry made of Government, whether the settlement of this district should under these circumstances be subject to revision; if so, the Collector should be authorized to annul all such engagements as may evidently appear to be collusive, and to require the landholders to enter into engagements to pay such jumma as he may consider their estates liable to, conformably to the principles of the regulations for the decennial settlement, leaving them to let out their lands in such manner as they deem most advantageous	22nd May	24	
Government order regarding the—of the district concluded by Mr. Montgomerie, late Collector of Sarun. Mr. Lumsden, Collector of Sarun requested to call upon the Canoongoes to declare upon oath whether they ever gave to Mr. Montgomerie the accounts of the mofussil settlement of Champaran for 1196, 1198, and 1199, or accounts similar thereto, and also the accounts of the mofussil settlement for 1197, and for the years preceding 1196, and subsequent to Mr. Montgomerie's appointment, whether they delivered the abovementioned accounts immediately to Mr. Montgomerie, or through any, and what, other person and persons, and whether they are of opinion that Mr. Montgomerie was acquainted with the assets of the district, and the grounds of that opinion	12th June	1	
Although there is strong ground to suspect Mr. Montgomerie, the late Collector of Sarun, had been guilty of the grossest negligence or collusion in making the—of the district, yet as the settlement not only received Government sanction when it was first submitted, but has since been solemnly confirmed by the proclamation of the 22nd March 1793, Government are of opinion that annulling it, even under the circumstances of fraud and deception which have attended its conclusion, would be a breach of public faith that might shake the confidence of the proprietors of land throughout the country, Board requested by Government to direct the Collector to explain in writing to the proprietors in Chumparun the reasons which have induced Government to confirm the settlement made with them in order that they, as well as the proprietors of land throughout the country, may be satisfied that Government will never deviate from its declaration regarding the permanency of the settlement, although it should be discovered that the jumma assessed was far below the amount at which it would have been fixed according to the regulations had the produce of lands been faithfully stated	12th June	1	
As Government are satisfied that Jag Mohun has been principally concerned in defrauding them of their just dues, Government think it proper to proscribe him from serving the Company in any capacity. Board directed by Government to order his proscription to be published throughout the district, that he may no longer retain the undue influence which there is every reason to believe he has established in it	12th June	1	
Mr. Lumsden, Collector, directed by Board to ascertain by the best evidence which he may be able to procure, whether Jag Mohun was at any, and during what time, in the employ of Mr. Montgomerie as a public officer, or as a private agent, dependant or servant, either avowedly or otherwise, and report the result for the information of Government	12th June	1
