Midnapore. Board informed Collector that they have no objection to the adoption of his proposition respecting the appointment of an officer under the denomination of a sadder—during the time that the lands may continue under his immediate management, but as the observance of such a mode is not prescribed by the regulations, it will rest with the zemindar to adhere to it or not as he may think proper whenever the lands may be restored to his charge.

9th Feb. 22-32

Board agreed with Collector that it is unnecessary to appoint a—for every single village.

Board pointed out to Collector that the akarnamah which he proposes to take from the patwaris though exceptionable in so far as respects the penalty which he suggests to subject them to in case of misconduct yet the existing regulations contain ample provision for that purpose.

9th Feb. 22-32

Board considering the difficulties felt by the Collector in the establishment of patwaris, informed him that he should make every allowance for the delay which may occur in carrying this object into effect, and that his proposal to make the patwaris independent of the zemindars is entirely incompatible with the existing regulations.
